# Zontes Warranty

Thank you for purchasing a Zontes motorcycle.

This book will allow you to record service history and provide details of the warranty covering your motorcycle. Please ensure the details of your bike have been completed overleaf and that the supplying dealer has stamped accordingly.

This motorcycle is warranted by the Retailer whose name appears overleaf, to be free from defects in materials and workmanship for a period of 24 months from the date of sale, with no mileage limitation.

These warranty terms are applicable providing your vehicle has been serviced in accordance with the manufacturer's recommended schedule. Proof of servicing will be required in the event of a warranty claim. This should contain the details of servicing carried out, detailing the specification of lubricants and parts used and the vehicle's mileage.

A Zontes dealer is best equipped to carry out your servicing requirements, however, should you choose to follow the required schedule at a non-Zontes dealer your warranty will not be affected, though evidence of service at a VAT registered dealer will be required.

This warranty is in addition to and does not affect or restrict your statutory rights as a consumer.

Note: Information given within is specific to the UK Market and supersedes the owner's manual where details maybe more generic for a global audience.

# Warranty Guidelines

## Inc. Terms & Exclusions

Warranty repairs will be promptly and efficiently carried out if you follow the guidelines below:

1. Report any defects to your Zontes Retailer as quickly as possible. A minor defect remedied now could prevent more serious defects developing. Surface defects must be reported no later than the first service.
2. Corrosion is not covered by warranty when it is believed to be the result of neglect, lack of cleaning, use of unsuitable cleaning products or normal wear and tear. See Care Guide.
3. If servicing has been carried out by a non-Zontes dealer, the Retailer reserves the right to reject any claim where it is thought that the cause of the defect is due to the use of an incorrect part or inadequate servicing or repair.
4. Your warranty does not cover you for faults which arise as a result of misuse, negligence, accident or normal wear and tear.
5. Your Zontes has been designed and built to extremely high standards to achieve optimum performance and economy. Neither the Retailer nor the Manufacturer can be held responsible for modifications to the vehicle which lead to defects unless those modifications have been approved by the Manufacturer.
6. The purpose for which your Zontes was designed and built was as a passenger carrying motorcycle for use under

normal street riding conditions. The warranty cannot extend to faults that arise as a result of the vehicle being used for racing, rallying or similar competitive sports. This includes off-road use. Further, the warranty does not cover vehicles used for commercial purposes such as, loan, hire or courier and delivery services.

7. Consequential loss of any nature as a result of a warranty problem is not covered. The vehicle owner should ensure that adequate cover for the loss or damage of personal belongings, property, etc. has been made.

8. Your warranty does not include breakdown cover. Please ensure you have adequate cover for both home and roadside assistance. Your retailer is not responsible for collection or delivery of your motorcycle in situations relating to warranty assistance.

9. Serviceable items are omitted from warranty. These include, but are not limited to, spark plugs, air filters, oil filters, brake shoes/pads, brake discs, chains, sprockets, clutch plates and bulbs. Exhausts are not covered for internal corrosion or external discolouration. Control cables are covered for 6 months and batteries for 3 months.

10. Damage by neglect or wear and tear to seats, paintwork, chrome, aluminium fittings, screens, and panels is not covered. Neither is exposure to corrosive elements, such as road salt and weather where insufficient cleaning and care has been administered.

11. Warranty is transferable from the first owner. Subsequent owners must follow the same terms and

conditions and must be in possession of the vehicle service history from new.

12. Zontes retailers are independent dealers and are neither wholly owned by Zontes (Guangdong Tayo Motorcycle Technology Co Ltd) or their UK distributor Clements Moto Ltd. The full parts and labour warranty is only available through the supplying Retailer. Whilst parts are covered other Zontes retailers may charge for labour, partially or in full, at their discretion.

# Care Guide

## Inc. Daily Checks

Ensure your bike is washed regularly using warm water and a proprietary detergent. Do not use washing up liquid. After drying apply a service spray such as WD40 or similar, to exposed metal parts. Chrome parts should be polished with an appropriate polish. Suitable cleaning materials are readily available from motorcycle dealers and auto centre superstores.

If your bike is left unused for prolonged periods, consider using a battery charger optimiser to maintain good battery health. Consult your dealer. If parked for a long period, such as winter, we suggest you remove the battery and charge regularly. The battery should be stored fully charged.

Never smoke whilst refuelling your motorcycle.

Never run your engine in enclosed areas such as a garage with closed doors. Exhaust emissions contain carbon monoxide and other harmful gases that can **kill**.

Check engine oil and coolant level regularly (ideally daily) before riding. Damage due to insufficient oil or coolant is not covered by warranty.

Check tyre pressures daily.

Check brake lights, indicators and running lights daily.

Check chain tension daily before riding.

# Service Schedule
